## DETAILED ACTION

### *Election/Restrictions*

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Specie A: elect either alkali or ammonium salt from claim 22.

-If alkali salt is elected, further elect one alkali salt from claim 17.

-If ammonium salt is elected, further elect one ammonium salt from claim 17.

Specie B: elect either flowers, fruits, leaves, roots, tubers, bulbs or other plant matter from claim 21.

Specie C: elect one acid from a), b), or c) in claim 19.

Specie D: elect one etheric oil from claim 13.

In order to be compliant, Applicant must elect either alkali or ammonium salt and a corresponding alkali or ammonium salt from claim 22 as Specie A, either flowers, fruits, leaves, roots, tubers, bulbs or other plant matter from claim 21 as Specie B, elect one acid from a), b) or c) in claim 19 as Specie C, **and** one etheric oil from claim 13 as Specie D.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims

Art Unit: 1655

subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

- Specie A: claims 17 and 22.
- Specie B: claims 21 and 22.
- Specie C: claims 19 and 22.
- Specie D: claims 12, 13 and 22.

The following claim(s) are generic: claims 22 and 12.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons:

There is no common structural element shared by all of the alternatives.
